Energy strategy at Google

Brian George, Energy Market Development and Policy

100% RE does not fundamentally solve the problem

Due to the variability associated with renewables, we still rely heavily on fossil fuels from the grid during periods of low wind or solar

Google's Third Decade of Climate Action

24/7 Carbon-Free Energy by 2030

Purchasing: Buy more and different types of clean energy deployed locally

Technology: Accelerate energy technology innovation

Policy: Advocate for policy changes to decarbonize electricity grids
